

ANIMATION TRICKS

CSS ANIMATIONS

We can build pretty cool animations with CSS, yeah!

CSS - ANIMATION LIBRARY

Here is a cool [animation CSS stylesheet](#)

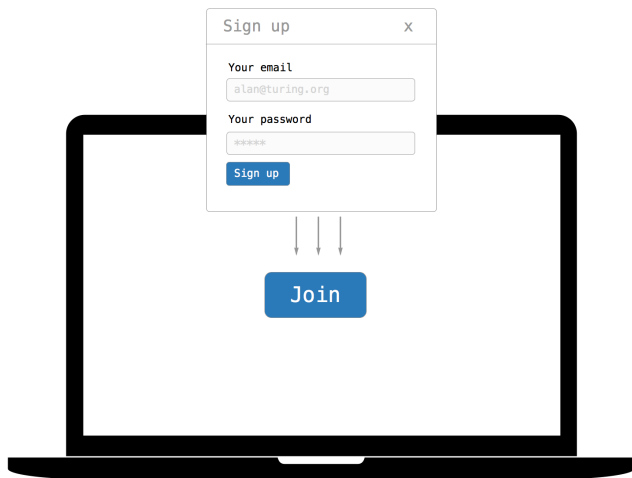

- Should be put it in **stylesheets/vendor** folder, that's not your code
- It's already in our Middleman boilerplate :)

CSS - ANIMATION BUILDING TOOL

JQUERY ANIMATIONS

BOOTSTRAP JQUERY - MODAL

```
<!-- Button to trigger modal -->
<button data-toggle="modal" data-target="#sign-up">Join</button>

<!-- Modal -->
<div class="modal fade" id="sign-up">
  <!-- Modal content with Sign up form -->
</div>
```

BOOTSTRAP JQUERY - POPOVER

Fizzer launch summer '14...

Posted on 7th July 2014 + ↗

Rent a roadstr car for Chri..

Posted on 6th Dec 2014 + ↗

Fizzer team
alumni batch #2

```

                   <h2>Fizzer Team</h2>
                   <p>alumni batch #2</p>">
```

```
<script>
  $(function () {
    $(".popover-img").popover({
      html: true,
      trigger: "hover"
    });
  });
</script>
```

NATIVE JQUERY - SMOOTH SCROLL

Start with [jQuery smooth scroll script](#)

```
$(function() {  
  $('a[href*=#]:not([href=#])').click(function() {  
    if (location.pathname.replace(/^\/$/, '') == this.pathname) {  
      var target = $(this.hash);  
      target = target.length ? target : $('[name=' + this.hash.slice(1) + ']');  
      if (target.length) {  
        $('html,body').animate({  
          scrollTop: target.offset().top  
        }, 1000);  
        return false;  
      }  
    }  
  });  
});
```

NATIVE JQUERY - WINDOW HEIGHT

Smooth Scroll play nicely with div **perfectly matching window height**

```
// Set div height to exact window height onload
$(document).ready(function() {
    $(".smooth-scrollable").css("height", $(window).height());
});
```

NATIVE JQUERY - NAVBAR \$CROLL

```
// navbar transition jQuery script
$(window).scroll(function(e){
  if ($(this).scrollTop() > 0) {
    $(".navbar").css({
      "background": "rgba(0, 0, 0, 0.7)",
      "box-shadow": "0 0 2px black"
    });
  }
  else {
    $(".navbar").css({
      "background": "transparent",
      "box-shadow": "0 0 0px transparent"
    });
  }
});
```

JQUERY LIBRARY - SCROLLREVEAL.JS

- Reveal elements on scroll with cool effects
- Copy the js file into a javascripts/vendor folder, that's not your code
